```python
In [11]: pi=float(3.14159)
         r=float(12/2)
         V=4/3*pi*r**3
         print ("The volume of a sphere is :",V)
```

The volume of a sphere is : 904.7779199999999
